

Unleash Power with “BASTION”

Master Your 48V Lighting Needs

Presenting Hawk-Woods' latest innovation: the "BASTION." Designed for high-current lighting applications, this cutting-edge power solution boasts an impressive 1600Wh capacity with multiple outputs, supporting voltages from 14v to 48v.

The BASTION shines as the ideal choice for powering demanding lighting systems, including the ARRI Skypanel, Creamsource Vortex 8, and other 48 Volt LED setups. It efficiently addresses the challenge of extended periods of running high-voltage LEDs at full power, ensuring uninterrupted performance.

With the BASTION's massive capacity, it can power the ARRI Skypanel S120-C at 100% output (430W/h) for an astounding runtime of up to 3 hours and 30 minutes. When operating at 50% output, its runtime extends substantially to 7 hours.

Features:

- 2x XLR 4-pin outputs supplying 14v @ 20A.
- 2x XLR 3-pin outputs supplying 26v @ 25A.
- 2x Speakon outputs supplying 48v @ 15A.
- 2x D-Tap outputs supplying 12v @ 3A
- 12v DC output 3A.
- 1x USB-A output supplying 5v @ 2A.
- 1x USB-C output full PD protocol (9v, 12v, 15v, 20v) 63w (max)
- Waterproof output covers.
- Backlit LCD display for monitoring status and run-time.
- Strong durable carry handles for transportation.
- Built in charger via Mains Input 100-240VAC 50/60 6A.
- Charges within 10-11 hours from a fully discharged state.

Filmmakers will appreciate the BASTION's versatility, as it effortlessly powers a wide range of systems, making it an invaluable asset for various production needs. Reliable and portable, the BASTION pushes the boundaries of portable power in the lighting industry, solidifying Hawk-Woods' reputation as a leading manufacturer for broadcast, film, and lighting equipment.
